THE SCANNELL-DONOHUE VENDETTA. CONDITION OF THOMAS DONOHUE-THE SEARCH

The condition of Thomas Donohue was unchanged yesterday. No one was allowed to see him except his physicians and some members of his family, and all conversation was interdicted. It was expected that his ante-mortem statement would be taken, but it was not done. Should be become worse, however, a Denehue is the only one who recognized Scannell either was the deed, and so well disguised was the assailant with slouebed hat and wig. The consins of Donohue, who were with him when he was shot, say they do not be-lieve they could recognize the assassin, more especially as neither of them obtained a view of his face. As soon is the shot was fired the assailant cast the pistol from birn and fled, and in his flight also threw away his wig

Capt, Cameron, several of the Central Office detectives, and those of the Eighteenth Precinct, to all of whom searchild is well known, were engaged yesterday and last sight searching for him in his hamis in this city; at wight searching for him in his hamis in this city; at the control of the have been for two months past, and at various other places outside he can avoid arrest for any length of known that it places outside he can avoid arrest for any length of kine. Among the Tammany Hall managers and followers the affair has created a deep feeling. Donohue is a member of the Tammany Hall deneral Committee from the Eighteenth Ward, and since the shooting of Fiorence Scannell, in December last, in Donohue's saleon, on Secondaye, and Twenty-third-st., during the general row there, and the threats of John that he would avenge his brother's death on all in any way responsible for it, more especially on Donohue, who he declared fired the fatal short, and the threats of John that he would avenge his brother's death on all in any way responsible for it, more especially on Donohue, when it was understood that Coroner Fiyna had issued a warrant for his arrest. He was for several days a gress of the Americus Club at Indian Harbor, and when all things were in readiness was brought down to falls city and placed in the custody of Capit. Cameron, but was a prisoner only in name. The Coroner's jury who investignated the circumstances connected with the shooting of Florence

The trial of Rowland R. West, ex-President of the late Association for the Prevention of Gambling. who is charged with obtaining money by false pretenses from Mr. Albert G. Messrs. Hyde & King, was resumed yesterday and closed. Mr. Howe, counsel for the prisoner, asked his Honor to charge that all the evidence showed that what West said was only information; that the indictment dees not charge any offense known to the law; that there are no false pretenses averred in the indictment and that the jury cannot convict; that the indictment charges that the detendant received 850 in money, when, in fact, he received a legal description of paper.

Jurge Bedford declined so to charge, and exception was taken by Mr. Howe, who then asked his honor to charge that there was no proof that West knew the information to be incorrect, and before the jury can convict they must be satisfied beyond reasonable doubt that he knew the information to be false. His honor consented to so charge. Judge Bedford in summing up said that an alusion had been made once in the trial to outside influences; he knew that the jury would turn a deaf ear to any unia will overfures, and would convict on the evidence before them. After reviewing the evidence, his honor said that if the jury believed the evidence of Mr. Hyde, there was no doubt of the guilt of the prisoner, but if flice had a reasonable doubt from the evidence, they must acquit. The jury then retired and in 15 minutes returned with a verdict of guilty. West was then sentenced to pay a fine of \$150, and to serve three years in the State Prison.

any transactions with John H. Richardson, nor were they victimized in any manner by any person; in fact the house knew nothing of the whole affair until they read it in the papers. While Mr. Maxwell was still speaking, Mr. McKay, a member of the house of William H. Vermiye & Co., entered, and declared his utter ignorance of any transaction with John H. Richardson, or any other, whereby like house had been swindled in the manner described; and furthermore, that his house did not deal in Union Pacific bonds, and he was utterly at a loss to know the object of the fabrication.

The Cashier of the Bank of the Commonwealth states that the story is false, and that he knew nothing of it until he read it in the morning; but thinking there might be a mistake in the name, and that probably the Continental Bank was meant, he went there and saw one of the officers, who told him that it did not relate to that institution. Mr. John H. Richardson; (the alleged swindler's) office was next sought, at No. 41 Wall-st., or, as it is also known, Jamney Court, but the only Richardson that had been in that building had gone to Egypt a year ago, and was safely and honorably established there as a commission merchant. Mr. Eichardson having been credited with box No. 3,321 at the Post-Office, the Superintendent of the Box Delivery states that box No. 3,891 was not retained by Mr. Richardson, but that a box was rented by J. H. Richardson, who had not called for letters in so long a time that the clerks at the window would not know him.

Not only does the Sarsaparillan Reselvent excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, Skin, and Syphiloid diseases, but it is the only positive remedy for Kidney, Bladder, Uriarry, and Womb diseases, Gravel, Undertex, Dropey, Stoppage of Water, Incentinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are Brick-dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid, dark, hillions appearance, and white bone-dust deposits, and where there is a pricking, burning sensation when passing water, and pais in the Small of the Back and slong the Leins. In all these conditions, RADWAY'S SARSAPARIL-LIAN RESOLVENT, aided by the application of RADWAY'S READY RELIEP to the Spine and Small of the Back, and the Bowels regnlated with one or two of RADWAY'S REGULATING PILLS per day, will soon make a complete cure. In a few days the patient will be enabled to hold and discharge his water naturally, without pain, and the Urine will be restored to its natural clear and amber or sherry color.

THE WASTES OF THE BODY

are supplied with new, healthy, and vigorous blood, that furnishes sound structure. Hence all suffering from WEARENING DISCHARGES, either MALE or FEMALE, of the Womb, Uteras, or other organs, whether Leucerboa, Sperm, or Eruptive discharges, of every kind, or from vio-lence of "Self-abuse," from the Genital Glands, or Venereal discharges, or siers, or sores, through the reparative process of RADWAY'S SAR-SAFARILLIAN, are arrested and the ruptured organs healed. THE TRUE THEORY OF CURE.

RADWAY'S SARSAPARILLIAN RESOLVENT applies the system through the blood, urine, sweat, and structure-making constituents, with Tissue-making, Flesh-making, Heat or Caloric and Fat-making elements. All of its constituents are neurishing, purifying, and strengthening.

It Repairs, Heats, Escolves, and drives out of the body the products of Decay and Corruption. CONSUMPTION, WHITE SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a scrotulons diathesis, and as such are within the curative range of the SARSA-PARILLIAN RESOLVENT! 1. That Scrofula, by whatever name designated, is the result of deposits

rom the blood, induced or caused by Chronic inflammation. That those eposite take place when the blood is poor, scall, scattery, and incapable of bolding in solution its proper constituents, or from the presence of some virus or poison in the blood, as Mercury, Calomel, Carrosive Submate, which is the Corrosive Chloride of Mercury or other agents given n medicines, and which enters largely in the common advertised Saras PARTIES. NOT ABSORBED OR CHANGED FROM THEIR NATURAL

CONDITION. 2. That unless the repairs or notriments are greater than the wastes. that decomposition and decay will supervene and the powers of life be come exhausted.

3. That the dying body cannot be enstained on any treatment of modiration that exhausts the system, or falls to nourish the medium through which the vital forces are preserved, and on which the growth of the body depends.

4. That RADWAYS SARSAPARILLIAN RESOLVENT appriles a

BAYERLY, Mess., July 15, 1989.

Da. Radway: I have had Ovarian Tumor in the ovaries and bowels, which declars said "there was no help for it." I tried everything that was recommended, but nothing belonged it. I saw your Resolvent, and thought I would try it, but had no faith in it, because I had suffered for TWELVE FRARS. I took air bottless of the Resolvent, one box of Radway's Pills, and used two bottless of vour READY RELIEP; and there is not a sign of a timor to be seen or felt, and I feel BETTER, SMARTER, and happer than I have for 12 years. The worst tumor was in the left side of the bowles over the groun. I write this to you for the benefit of others. You can publish it if you choose.
